

## Hydrospace S4 Mounting Plate Template

### Install Detail:

1. Print this page 1:1 and confirm that the scale measures exactly 100mm.
2. Place this page on the Hydrospace Mounting Plate - NOTE - some stock plates are shortened on the right hand side - make sure boundaries align with existing holes on plate.
3. Centre Punch the 6 crosshair-indicated new holes.
4. Drill holes to size. Use supplied Mx00 mounting bracket to mount ECU with connectors facing down.
